Short Bible Study on the Grace of God

# Grace In The Protestant Church

- The Protestant Church says that **Grace** is: "unmerited gift or favor granted by God"

# Grace In The Catholic Church

In Catholicism, **Grace** is poured by God unearned into mankind with means that include the sacraments, prayers, good works and the hierarchical ministry of the Catholic Church

# Grace

In other words, according to both Catholics and Protestants, **Grace** is something that people absolutely do not deserve, but God is so good that He gives it to them anyway

... But... is any of this true?

Of course NOT!!!

Why would God give people something  
they do not deserve?

It makes no sense!

# Meaning Of The Word Grace

The original Greek word for Grace is: "Charis", which means "the merciful kindness by which God, exerting his influence upon souls, turns them to Christ, keeps, strengthens, increases them in faith, knowledge, love, and shows them how to keep His Commandments and how to become more like Christ day by day"

# Meaning Of The Word Grace

In other words, the Grace of God is:  
"the merciful kindness of God and  
His blessing that turns people's heart  
to Christ and gives them the  
knowledge and ability to change and  
conform to Jesus"

# The Grace of God

God is only merciful and kind with those who deserve His mercy and kindness

# The Grace of God

God blesses with His Grace and gives the knowledge of how to change and conform to Jesus only to those who deserve to have it

# Grace and Truth

We now live in the New Testament time and we are under a New Covenant thanks to Jesus and we have both Grace and Truth through Him

# Grace and Truth

We have Truth with the ability to fully understand

and Grace with the power to effectively change

# Grace and Truth

John 1:17

"For the Law was given through Moses, but Grace and Truth came through Jesus Christ."
